Experience

TecnoTech, Amman – Jordan
Web Developer – Team Lead

Full Time
05 / 2022 – Present

- Responsible for crafting and maintaining WordPress websites, involving custom theme and plugin development. Also accountable for generating and managing content, including blog posts, multimedia uploads, and search engine optimization.
- Engaged in the creation and management of web applications using the Laravel framework and APIs. This role includes designing and developing customized functionalities, integrating APIs, and ensuring seamless application performance. Additionally, responsible for optimizing application speed, implementing security measures, and staying updated with the latest industry trends to enhance the overall user experience.

Rama Vision, Amman – Jordan
Full-Stack Web Developer

Full Time
01 / 2020 – 04 / 2022

- Tasked with developing user-friendly web interfaces through the application of HTML, CSS, and JavaScript, ensuring optimal responsiveness. Additionally, accountable for designing and implementing the essential server-side logic for web applications, employing languages such as PHP to ensure their smooth functionality.
- Involves crafting dynamic web applications using Laravel framework and APIs. This entails designing responsive user interfaces that interact smoothly with APIs for efficient data exchange. Additionally, responsible for developing server-side logic in PHP to drive application functionalities, while prioritizing performance and security optimization.

Zarqa University, Zarqa – Jordan
Computer Labs Supervisor

Full Time
02 / 2018 – 02 / 2019

- Seasoned Computer Labs Supervisor at Zarqa University, Jordan, with a wealth of experience overseeing and managing educational technology environments. Proficiently maintained and supported computer labs, ensuring seamless functionality for students and faculty. Leveraged strong technical acumen to troubleshoot and resolve hardware and software issues promptly. Led a dedicated team, fostering collaborative efforts to provide top-notch technical assistance. Through effective communication and problem-solving skills, ensured a conducive learning atmosphere and efficient operations within the computer labs.

Freelance

Full Time

WordPress Developer

04 / 2017 – 04 / 2022

- Experienced and dedicated WordPress Developer, skilled in both freelance and full-time roles. Proficient in crafting dynamic and user-friendly websites using WordPress, I bring a deep understanding of theme and plugin development, customization, and optimization. My track record includes successful collaborations with diverse clients and projects, delivering high-quality solutions tailored to specific needs. With a keen eye for design and a commitment to clean and efficient code, I consistently contribute to creating engaging and functional online experiences.

Education

Zarqa University, Zarqa – Jordan

2014 - 2018

Bachelor of **Computer Information Systems**

GPA of 85.2 (Excellent)

I graduated from Zarqa University with a Bachelor's degree in Computer Information Systems. My four-year journey was marked by an outstanding academic record, achieving an impressive average of 85.2% and securing the top rank in my college. This program instilled in me a strong grasp of computer science theory and hands-on skills in programming languages, software engineering, databases, and cybersecurity.
